TWO MORE CALLS

FIVE MEN FOR FORT McDOWELL JULY 15TH, 13 FOR CAMP LEWIS JULY 22D

The local Exemption Board has received from Sacramento an order to send five men to complete Call No. 789, their entrainment for Fort MacDowell to take place during the five-day period beginning July 15th; also a call for thirteen men to be entrained for Camp Lewis, American Lake, during the five-day period beginning July 22d. On both of these calls only white men physically qualified for general military servicec are to be inducted, and the number of men called for must be actually entrained. Deferment of the entrainment of agriculturists may be made as heretofore if the quota can be filled without sending such men, but the quota must be filled and if no others are available, the men whose entrainment has been deferred because of their being actively engaged in agriculture, must be called.

WAR SERVICE SOCIETY

A group of ladies who for some time have been doing Red Cross work regularly at their homes in turn, at a meeting held two weeks ago at the home of Mrs. A. B. Clement, 1321 North Pacific avenue, adopted the name "War Service Society." At her home the finished products were assembled and turned over to the Red Cross, the donation including 25 finished aprons, 12 surgeon's caps, four bathrobes and $15, accumulated from the attendance fees of 10 cents per member. Last Thursday the club met at the store of Miss Noel on the corner of Central and Stocker streets, where they again worked on aprons and took in fees which totalled $2.70. The organization now has a membership of 25 with more in prospect. The next meeting will be held July 11th at the home of Mrs. Rockhold at 1430 Burchett street at one o'clock.

AS HE SAW IT

INTERESTING DESCRIPTION OF GREAT LAKES NAVAL TRAINING STATION

The following letter addressed to his mother, Mrs. S. C. Porter of 821 West Fifth street, this city, by H. Montague Porter, will be of interest to many residents of this city whose thoughts are centered on the boys of the United States Army and Navy and the camps in which they are trained. The station described here is within about thirty miles of Chicago on the shores of Lake Michigan and not far from Fort Sheridan.

And now I want to tell you of my visit to the Great Lakes Naval Training Station a few days ago. It is about a third the distance from Chicago to Milwaukee, close to the lake. Taking the North Shore Chicago & Milwaukee Electric line where it connects at Evanston with the Northwestern Elevated system, we continue through many suburban residence towns along the lake shore. These towns are more rural than the Oranges in New Jersey, yet every bit as attractive as home places, with excellent transportation to the city.

On the way I learned that it being Saturday, it might be a little difficult to gain admission unless there was some one there whom I knew. Visitors' days are Sunday and Wednesday, when the general public is admitted without question. But having started, I continued. As I got off the car I saw a number of the marine boys there and made some inquiry about what to see and where to see things at the station, and offered him the daily paper. He informed me of the regulation not to admit strangers except on visiting days, and then asked if I had a pencil. I promptly produced one. He wrote on a slip of the newspaper as follows: "G. G. Benson, Detail Dept., Administration building," and said, "That's me. Ask for me at the information tent and I think you will get in all right, but of course you will not find me there." I appreciated his generosity and went to the office tent and asked for Mr. Benson at the Administration Building. "Is Mr. Benson expecting you?" came the question. I replied "Yes, but he does not know exactly when I am coming." Without a word a pass was written out, with permission to stay till 6:00 p. m.

Very soon after passing the gate one comes to the "Hostess House," which is as its name implies, a place for visiting ladies to meet relatives or friends. It is well and plentifully furnished with easy chairs, divans and tables for light refreshments,

(Continued on Page 4)

SOLDIERS' DANCE

MRS. ELLA RICHARDSON ENTERTAINS TWO HUNDRED SOLDIERS AT DANCE FRIDAY

Not less than three hundred were present at the program and dance given Friday evening at the spacious home of Mrs. Ella Richardson, 805 South Central avenue, for Companies A and B of the Coast Artillery, who have been in practice on the Government Rifle Range. Captains La Mont and McFarland were present and Lieutenant Lee and all the men of the companies except those who were on guard duty. It was a brilliant affair.

Mrs. Richardson was assisted in entertaining by Mr. and Mrs. C. S. Rudling of Saugus, Mr. and Mrs. C. O. Pulliam, Mr. and Mrs. Alexander Mitchell, Mr. and Mrs. John A. Logan, Mr. and Mrs. L. W. Bosserman, Mr. and Mrs. Stephen Packer, Mr. and Mrs. A. S. Chase, Mr. and Mrs. Harry Duffield, and Mr. and Mrs. Parker of Riverdale drive.

Strings of Japanese lanterns and electric lights illuminated the garden, where dancing took place on the tennis court under the direction of Andrew Stephenson, and for the comfort of the dancers punch was served by Miss Cady, an attractive colored girl in "Mammy" costume, who was delighted to have the opportunity to serve the boys from Texas, Arizona and Oklahoma. A seven-piece orchestra was kept busy and no time was lost by the guests. Captain La Mont led the grand march and was assisted on the floor by Lieutenant Lee.

Interspersing the regular numbers were fancy dances by the two little Turner children. F. J. W. Henry gave some exceedingly entertaining impersonations of Harry Lauder, Miss Ora Lockhart, the whistler, contributed charming numbers, Mr. and Mrs. Cotton gave a song and piano recital which was much enjoyed, and William C. Wattles' fancy drill with dumbbells won much applause.

For guests who did not care to dance, games were provided in the ballroom under direction of Miss Frances Jackson. There was no lack of entertainment of a sort to please everybody and the boys of Companies A and B, for whom this farewell festivity was given on the eve of their return to San Pedro, were loud and fervent in their expressions of appreciation and testimony as to the good time they had.

WAR S. S. REACHES $80,000

Eighty thousand dollars is the amount in round figures that has been invested in War Savings Stamps in Glendale in the drive that has just closed. Prof. Harry L. Howe and assistants have been busy preparing a detailed report which will be published in full Monday.

LIVE COLE CLUB

Several weeks ago the young people's Bible Class of the Christian Church, of which Rev. Clifford A. Cole is the instructor, organized for social meetings as "The Live Cole Club." This club met Friday evening at the home of Mr. and Mrs. Homer Miller on Burchett street, where a business session was followed by guessing contests, music and other items of entertainment all of a patriotic nature. The national colors also featured the refreshments. About twenty members were present and all had an exceedingly good time.

DEATH OF MRS. RUDOLPH UMANN

Mrs. Rudolph Umann of 1429 Valley View road died suddenly of heart failure Friday morning at 2 o'clock. She had been confined to her bed for two weeks with a broken hip but had seemed to be getting along nicely and her husband and her daughter, Mrs. James Apffel, were quite unprepared for the sudden ending of her life. Funeral services are to be held this afternoon at her late home at 2 o'clock, and interment will be made in Rosedale Cemetery, Los Angeles.

HUNTLEY-RENNER WEDDING

A very quiet wedding took place Friday evening at 8 o'clock at the home of Rev. B. Dudley Snudden, pastor of the First Methodist Church, who officiated. The contracting parties were Matie C. Huntley of Glendale, who has been residing on a beautiful ranch which she owns near Mountain View Cemetery, and William C. Renner, of Pasadena, who has been connected with the Fruit Exchange in that city. Immediately following the ceremony they left for their ranch home.

ON THE BATTLE FRONTS

GERMANS REPELLED BY FRENCH SOUTH OF THE AISNE—BRITIS HCAPTURE MANY PRISONERS

(Special Service to Glendale Evening News)

PARIS, June 29.—German efforts to recapture new French positions south of the Aisne were repelled last night after a stubborn battle. Southwest of Rheimes there was also hot fighting. Northwest of Montdidier American raiders captured forty prisoners. German airmen bombed Paris last night, but an effective anti-aircraft barrage prevented any casualties.

LONDON, June 29.—The British captured 4000 prisoners in their advance east of Nieppe forest yesterday and took large quantities of field equipment. Hostile artillering was active opposite Vaire wood south of the Somme. Mutual cannonading in the Nieppe Forest sector is reported.

WITH THE AMERICANS IN FRANCE, June 29.—Lieut. Jack Chambers was wounded in the arm while piloting a bombing machine over the German lines. Despite this he steered his machine over moving enemy troops while a British gunner threw bombs. He returned safely to the American lines and lost consciousness while alighting from his machine.

AMERICANS LAND IN ITALY

GENERAL MARCH ANNOUNCES THAT SANITARY UNIT HAS ARRIVED—PERSHING WILL SEND TROOPS

(Special Service to Glendale Evening News)

WASHINGTON, June 29.—General March, Chief of Staff has announced that the first American troops landed in Italy yesterday. These are mainly Sanitary forces and have been on the seas for some time. This unit is distinct from the one General Pershing will send to Italy.

AMERICAN INDUSTRIES PROFITEER

FEDERAL TRADES COMMISSION IN REPORT TO SENATE SHOW UP DISLOYALTY OF BIG CORPORATIONS

(Special Service to Glendale Evening News)

WASHINGTON, June 29.—The Federal Trades Commission's report to the Senate charges that a number of American industries are gorging themselves with war profits. It alleges that the Armour, Swift, Morrison and Cudahy packing plants reached $140,000,000 profits between 1915 and 1918 of which $121,000,000 was excess over pre-war profits. The report is intended as an exhibit upon which the Senate may base new legislation. The report stated that one steel mill had a profit of 320 per cent and others over 100 per cent. The copper industry more than doubled on its earnings, 21 companies in 1917 making a profit of from 10 to 101 per cent. The coal industry doubled and trebled normal profits and the leather industry quadrupled normal earnings. Flour milling concerns averaged 38 per cent on their investments and canned milk ranged 20 per cent on cost while salmon canneries realized 52 to 200 per cent on the net investment. Many industries have juggled their accounts so their books will not show profiteering.

SIOUX CITY FIRE

(Special Service to Glendale Evening News)

SIOUX CITY, Iowa, June 29.—Fire broke out in Russ' drug store this afternoon and spread so rapidly that thirty persons in the basement and in the adjoining meat market were trapped. The fire threatens the entire block which is in the business section. The work of rescue is impeded by the intense heat.

CROWDER IS LIEUTENANT GENERAL

(Special Service to Glendale Evening News)

WASHINGTON, June 29.—The Senate today voted to confer the title of Lieutenant General on Provost Marshal General Crowder "in recognition of distinguished services in connection with the draft."

SEVENTY-FOUR NAMES ON CASUALTY LIST

(Special Service to Glendale Evening News)

WASHINGTON, June 29.—Today's casualty list includes the names of five killed in action, twelve deaths from wounds, two deaths from disease, two accidental deaths, fourteen severely wounded, including C. L. McCormick of Lodi, seven missing. Marines, 24 killed in action, eight deaths from wounds, seven severely wounded.

PRESIDENT VETOES POSTAL BILL

(Special Service to Glendale Evening News)

WASHINGTON, June 29.—President Wilson today sent to the House with his veto the postal appropriations bill because it provided for continuing in operation pneumatic postal tubes in five of the larger cities. He held that these were of value before the volume of mail reached its present proportions and before the present development of the use of motor vehicles.

LONG RANGE NAVAL BATTLE

LONDON, June 29.—Five British destroyers engaged eleven German destroyers off the Belgian coast in a long range battle last Thursday the Admiralty announced. No material damage resulted to either side.

DRUMS FORE AND AFT

A RALLYING CALL TO THE ARMY BEHIND THE LINES

L. T. Rowley, who for some time has been serving as the very efficient chairman of the Salvage Department of the Junior Red Cross, is of the opinion that the people of Glendale do not fully appreciate the magnitude of this branch of the Red Cross service nor the importance of its contributions to the treasury. It is not a nice, quiet, pleasant work that can be done with clean hands in a spotless uniform like the surgical dressings work. Instead it means grime and dirt, the handling of tons of dusty papers and magazines, of bulky packages of garments, some of them ill-smelling, soiled and ragged, the sorting of old rags, of rusty metal junk, stained bottles, old rubber and the endless variety of superfluous things which accumulate in every home. Nevertheless this department, which only those who are truly and unselfishly consecrated to service will work in, has been so organized and managed in this city that it is yielding an income to the Red Cross of about $500 a month, according to statistics furnished by Mr. Rowley. Glendale has reason to be proud of this fact, because it is said to be the most profitable Red Cross Department in any city of its size in Southern California.

The majority of the readers of this paper have reason to know from the information published from time to time in its columns the methods pursued in conducting this department, how the miscellaneous salable articles are turned over to the Red Cross Store at 318 Brand boulevard, how the papers and junk of every sort are taken to Los Angeles and there sold to the best advantage. From old rubber alone $50 has been realized in the past three weeks, and the old papers have been yielding about $30 a week net. There have also been the returns which could not be estimated in dollars and cents, the leather which is given to the department which makes vests for aviators, the clothing which is repaired, fumigated and cleansed to be sent overseas to destitute French and Belgian civilians, or which is turned over to the local relief department maintained by the Tuesday Afternoon club and the P.-T. A. Federation, the materials new and old which are manufactured into garments, into quilts or into carpet rags by women who are working faithfully in the conservation department. And, by the way, some of these women are overworking because there is such dearth of helpers and the need is so great, while other Glendale women just as well able to serve are doing nothing. However, arrangements are being made to push this work by representatives of the various Parent-Teacher Associations. Professor Richardson D. White states that every school will be open at some stated time for work of this character which will not only be done on the premises but which will be taken away to be done at home by school girls and their mothers. The Intermediate School will be a special center for activity along this line, and an organization for the High School under Mrs. Wernette will be effected at a meeting next Tuesday afternoon, July 2d, which she has urged all members of the High School P.-T. A. to attend.

Mr. White also states that all funds accumulated by the Junior Red Cross in excess of its needs will be turned into the treasury of the parent organization, the Glendale Red Cross Chapter, as the two are working harmoniously together for the same cause.

Mr. Rowley says it is most important that every citizen should realize his or her personal responsibility for the Salvage Department and not allow its collections to fall off because of failure to save papers or other supplies for it, or to diminish for lack of boys to make collections or machines to gather them up. Now that this branch of the service has been established on such a paying basis, we can not afford to let it languish because of indifference. Summer is a season of relaxation and there will be a natural disposition to shirk the work unless every friend of the Red Cross determines to perform this duty regardless of vacation allurements. We must all be soldiers and stand by our posts and reinforce the faltering workers in the army behind the lines.

The Pacific Steamship Company has announced that it proposes to apply to the California Railroad Commission for permission to increase class and commodity rates applying between San Francisco and San Diego and Wilmington, Cal., in order to cover the increased cost of operation.

TWO SUGGESTIONS

DR. MILLS ADVISES ERECTING MONUMENT TO OUR FALLEN SOLDIERS

I offer to the public the two following suggestions:

1st. That Fifth street be called High street because of the High School being upon it.

2nd. That the city take steps at once for the erection of a soldiers monument on which shall be placed the names of those who die in the present war for their country. Already we have the names of two of our boys who have made the supreme sacrifice, and the others can be added from time to time. So far as the place of its erection is concerned, I suggest, as we have no public square or park, that it be placed in front of the High School, where the flag staff now is until we do have such a square. About three years ago an expert from Los Angeles said that the logical square for such a park would be the one opposite the High School, where the lumber yard now is, bounded by Broadway, Louise, Fifth and Maryland streets.

Afterwards at two public mass meetings held in the High School auditorium it was decided to choose for the public park the square on the east of the High School grounds, bounded by Fifth, Kenwood, Colorado and Louise streets, because of the facts it would be opposite the High School buildings, including the new large High School auditorium soon to be built and the Public Library; and as the Tuesday Afternoon Club owns grounds facing that square, all it would need would be a new City Hall facing it somewhere and we would have a civic center of which any city would be proud.

REV. C. IRVING MILLS.

PIANO RECITAL

An interesting little recital, which was heard by quite a large number of parents and friends, was given on Wednesday morning by the piano pupils of Miss Gertrude Champlain at the home of Mrs. Jessie Cummings, 439 South Adams street.

A well-selected program was given, which included numbers by the leading composers. The young folks rendered their selections in a highly commendable manner, revealing the careful training in technique and interpretation given to them by their teacher. Those appearing on the program were Elly Christensen, Robert Clewitt, Preston Hanning, Luella Myton, Ellen Myton, Velma Pearce, Isabel Franklin, Marian Cummings, Harold Smith, Anna Smith, John Faries, Roma Staub, Gladys Woodyard, Dorothy Shaw, Muriel Theobold, Katherine Delgardo and Lillian Cassell. Ralph Shaw, a pupil of Julius Kranz, played two violin numbers, accompanied by his sister.

STORY HOUR

MRS. DANFORD WILL ENTERTAIN AND INSTRUCT CHILDREN AT LIBRARY

Next Tuesday the Story Hour at the Glendale Public Library, which has been such a feature of the summer season to juvenile patrons, will be inaugurated. It will take place between 9 and 10 a. m., and in order that Mrs. Danford and her assistants may be free to give their undivided attention to their young guests, the library will be closed to adults at that time.

Mrs. Danford has the happy faculty of putting herself on the intellectual plane of the children at such times and securing their undivided interest. Her success in the past is attested by the attendance, which reached 125 on several occasions, also by the fact that the announcement of the "Story Hour" is hailed with joy by the little folks.

This first "story" will very properly be a patriotic one which will tell how the American flag came to be, and to all children who pledge themselves to care for it reverently, a souvenir flag will be given by Mrs. Danford.

The underlying thought of the Story Hour is to lead and direct the reading of children and teach them the value and uses of the library. Following the talk they will be shown where the books are and taught how to locate them and how to make use of their cards.

As a special courtesy to little guests at these sessions, cards will be issued to all six-year-olds who attend and apply for them. Ordinarily cards are not issued to children under eight years.

The general plan which Mrs. Danford has outlined for this series of talks will be published later. Meanwhile the boys and girls should remember that the first Story Hour will be next Tuesday at 9 a. m.

GLENDALE, CALIFORNIA, SATURDAY, JUNE 29, 1918

WE OWE IT TO THE BOYS

There are 1,800,000 of our American boys now serving in the army or navy of the United States. Some are not coming back, most of them are. To those who are already across the seas we owe every penny that can be saved through habits of thrift. For those who will come back every penny will be needed in the work of reconstruction. Thousands of the boys are fighting and dying to save the liberties and rights of those who stay at home and obtain freedom against military despotism. The "Stay at Home" army should be many times larger than the army fighting, and the "Stay at Home" army is the THRIFT ARMY.

CHRISTIAN ENDEAVOR

STATE ANNUAL CONVENTION TO BE HELD AT SACRAMENTO JULY 3D TO 7TH

Information has just been received that State President Allen of San Francisco, together with officers of the State Christian Endeavor Union and the Local Committee in the Convention City have arrangements perfected for the presentation of the Union's most striking program of speakers and other features and the most extensive plans for entertainment on the part of Sacramento people have been made for the reception of the 4000 Christian Endeavorers who will gather for their Annual Convention.

The Theme of the Convention is "Power for Living." Among some of the important speakers will be the following: Dr. J. R. Pratt of Pasadena; Rev. James H. Lash of Hollywood; Dr. W. W. Catherwood of Santa Barbara; Dr. L. A. McAfee of Berkeley; Rev. J. Q. A. Henry, World's Traveler; Dr. J. E. Robbins of India. J. Chester White, Otis Ironmonger, J. E. Jordan and Elwood Roughton will be in charge of the song service.

Prof. Pease of Sacramento will have charge of the Chorus Choir of 250 voices. An inspiring musical program will be a part of the main convention sessions.

State Officers and other prominent Endeavorers of the State to take charge of various sessions and sections of the Program, will be present.

A large tabernacle for the use of the convention has been erected on the grounds of one of the public schools of Sacramento for the use of the convention, which will also be given the use of school buildings. This campus is within five blocks of the main intersection of the city. The Sacramento Committee has promised to present a recreation afternoon the like of which has never before been presented at a convention. A big parade and special demonstrations by aviators from the Sacramento field are among the unusual features promised to delegates. It is said that auto caravans will be a novelty in connection with the convention this year, large delegations attending in that way instead of by train or trolley.

WEATHER FORECAST—Probably fair tonight and Sunday. Cloudy along the coast. Light westerly winds.

HELP IN 50-50 WHEAT PROGRAM

Thousands of Retail Grocers Support Food Administration Rules.

SIGN PLEDGE VOLUNTARILY.

New Wheat Saving Program Demanded — Allied Food Shortage Increases—America Must Feed Fighters.

Explaining the United States Food Administration's new 50-50 wheat regulations is a war time task the American grocer has gladly shouldered Many stores are already displaying their Food Administration wheat saving pledge cards, that they have signed, agreeing to carry out the new wheat program.

Each flour customer is now required to buy one pound of cereal substitute for every pound of wheat flour The substitute may be of one kind or assorted. This 50-50 sale is made by weight and not by value of the commodities. There is, of course, no regulation demanding the consumer to buy wheat flour at all.

A wide variety of substitutes has been provided: Cornmeal, corn flour, edible cornstarch, hominy, corn grits, barley flour, potato flour, sweet potato flour, soya bean flour, Feterita flour and meals, rice, rice flour, oatmeal rolled oats and buckwheat flour.

Graham and whole wheat flour constitute an exception to the national regulation. Either of these commodities may be sold at the ratio of three pounds to five pounds of wheat flour—that is, five pounds of graham or wheat flour counts the same as three pounds of the usual wheat flour.

Mixed flours form another exception. Where any flour contains 50 per cent. or less of wheat it may be sold without any substitutes. Where the flour is mixed at the rate of 60 per cent. wheat and 40 per cent. of other ingredients an additional 20 per cent. of substitutes must be purchased by the consumer.

Where necessity is shown specially prepared infant's and invalid's food containing flour may be sold.

That the approved substitutes may be assorted is a fact many grocers and housewives overlooked for a time. For instance, if a customer wishes to buy a 24 pound sack of flour the necessary substitutes might be assorted as follows: Cornmeal, 8 pounds; corn grits, 4 pounds; rice, 4 pounds; buckwheat, 2 pounds; cornstarch, 1 pound; hominy, 2 pounds; rolled oats, 3 pounds.

None of the substitutes should be considered as a waste purchase. There are many household uses for each. The eight pounds of cornmeal can be made into cornbread, corn muffins or used in the baking of wheat bread.

Cornstarch is useful in making custard, thickening gravy or may be used in cake baking. Corn grits fried like mush forms a delicious dish, or it may be used in baking corn bread. Rolled oats are used largely as breakfast porridge or in oatmeal cookies or in making muffins.

Buckwheat flour may be used in bread making, forming an excellent substitute for one-quarter of the wheat flour, but is especially choice in the form of buckwheat cakes for breakfast.

With 11 wheatless meals needed each week in America to provide enough wheat for the allies, the Food Administration believes the substitutes will all be used to advantage.

USE LESS WHEAT.

The allied nations have made further increased demands on us for breadstuffs — demands that Americans are obligated to meet.

In the meantime America's meat supply has been greatly increased for some months to come by the unprecedented shipping to market of hogs that averaged 232 pounds each instead of 203 pounds—the normal.

The United States Food Administration, endeavoring to adjust the international food balance, promptly removed certain restrictions in this country on the use of meat and at the same time asked for a smaller consumption of breadstuffs.

We are asked to observe only one meatless day each week—Tuesday. We will have larger meat stocks for awhile. But our bread ration must be held to a minimum.

In altering its food conservation program the Food Administration emphasizes that the food situation is of necessity, subject to radical changes, caused by crop conditions at home and abroad and by the precarious transportation problem, both in overseas shipping and in America's overburdened transportation system.

The Food Administration will keep the American people fully and frankly advised of each change in the developing situation that they may know definitely the part their food sacrifices play in the world war.

PROGRAM POSTPONED

The patriotic program that was to have been given this evening at Masonic Temple by Miss Dorothy Shindler and Miss Gwendolyn Brooks has been postponed on account of the serious illness of one of the participants. Further notice of the date will be given.

STILL IN SERVITUDE

A northern man traveling through Alabama was much interested in Uncle Ned.

"So you were once a slave, eh?" said the man.

"How thrilling," said the gentleman. "And after the war you got your freedom, eh?"

"No, sah," said New gloomily. "I didn't get mah freedom, sah. After de war I done got married."—Exchange.

Personals

Red Cross Garden Party tonight at residence of Mr. and Mrs. Toll on Kenneth road.

Soldier boy readings by B. T. Robley of University of California, at Garden Party tonight at Toll Residence.

Miss Leone Shattuck, who was the guest of Miss Coral Griffith in Long Beach for a month, returned to Glendale this week.

Soldier boys in Glendale on leave and those who remain at the rifle range will be guests at the Garden Party tonight at the Toll residence on Kenneth road.

A British flag was lost at the time of loyalty parade and street dance Tuesday evening. Finder will please leave the flag at the Public Service Department.

Miss Elizabeth Phillips, 710 West Fifth street, left Wednesday for Tacoma, Wash., where she will spend a month visiting friends. Miss Phillips is librarian in the State Normal in Los Angeles.

It is reported that Companies A and B of the Coast Artillery under Captains La Mont and McFarland, have been ordered back to Fort MacArthur today, and that Companies C and D will arrive to take their places at the Government Rifle Range.

Friday evening about five o'clock the Glendale fire engine made a dash for 1446 Riverdale drive, where a grass fire in the rear of the H. W. Petty house had escaped control and begun to destroy a fence. It was soon extinguished without serious damage.

Library patrons who are gardeners are reminded by Mrs. Danford, City Librarian, that the library now contains an excellent list of books, pamphlets and bulletins on the growing of vegetable and other crops, how to protect from insect injury, etc., which are exceedingly valuable and can be freely used by horticulturists.

Three soldiers from the Rifle Range were very pleasantly entertained Thursday night by Mrs. J. P. Crampton of 1011 Chestnut street, assisted by her daughter, Miss Grace Crampton, and the Misses Grace Shropshire and Gladys Lampert. The evening was spent with music and games and refreshments were served.

Mr. Grose of the Grose Vulcanizing Company, this city, reports that his daughter-in-law, Mrs. R. M. Grose, will leave San Francisco Saturday for an overland trip to Philadelphia, where she will meet her husband. Ensign Grose, an officer on one of the big transports in the government service, who expects to be there for several weeks.

Miss Coral Griffith, who has been making her home at Long Beach for several weeks, has returned to her first love and is now established in her old home at 1321 Valley View road. She was at work at the Red Cross headquarters Friday directing the manufacture of vests for aviators, of which she has charge as chairman.

Mr. and Mrs. J. C. Pierce of 214 West Colorado street report that their son J. Paul Pierce, was entrained for Camp Kearny last Monday. Paul registered in Riverside county and therefore was not under the jurisdiction of our local Exemption Board. He is very well known here, however, as he was graduated from Glendale Union High. Later he was a student at Occidental College for some time.

Miss Mary Berryman of Los Angeles was a guest of Miss Catherine Phillips of 710 West Fifth street Friday evening and attended the party given for the Coast Artillery boys at the home of Mrs. Ella W. Richardson. Thomas Phillips, who is in the naval reserve and stationed at San Pedro, enjoyed his first leave Friday evening and visited at his home, returning to duty late that night. He came back today to spend the week end in Glendale.

Mr. and Mrs. A. M. Hunt of 1201 Viola street entertained as their dinner guests Thursday evening Miss Ruth Barton, Miss Maud Salisbury, Messrs. C. M. Doane, J. Hallahan and L. Bingham, the gentlemen named being members of Company A Coast Artillery from the Rifle Range. Later in the evening they were joined by soldier comrades who had dined at the home if Mr. and Mrs. D. B. Pingree on North Jackson street, and were entertained with games and dancing, refreshments being served at the close of the evening.

Applicants for commissions as first lieutenants in the Engineer Corps, according to a statement by the War Department, should be between 32 and 36 years of age and for commissions as captains between 36 and 42. The Engineer Corps is conducting a campaign for 2,000 more commissioned officers, the examining board making a tour of the principal cities of the country to make examination readily available for applicants.

WARNING!

Look out for widows—especially your own! If your wife and children were without food today what wouldn't you do to provide it? And what would they do if you were not here to provide it?

You believe that a woman should be a home-maker. Be consistent—8,000,000 women in the U. S. are obliged to work outside their homes for a living!

Love of home and family is the basis of GOOD government. It is also the basis of life-insurance. Let me prevail on you to give more attention to the protection of all you hold dear. The government says that $57.50 a month for 20 years, is the minimum for a boy—how much is necessary for a man?

MR. JONES ATTENDS CONFERENCE

Mattison B. Jones of 106 South Orange street returned Friday from Berkeley, California, where he had been in attendance at a conference of the Baptist District, including territory west of the Rocky Mountains. Mr. Jones has been president of the Conference for two years. There were delegates present from all parts for the West.

ORGAN CONCERT

Program to be rendered by Prof. Geo. B. Miller, in the "Little Church of the Flowers," Forest Lawn Cemetery, Sunday, June 30th, 1918, from 2 to 5 p. m.:

Adagio—Calkin.
Offertoire—Foulkes.
March—Macfarren.
Pastorale—Merkel.
I Waited for the Lord—Mendelssohn.
Aria—Handel.
Chorus—Handel.
Prelude inD —Silas.
Allegro Pomposo—West.

CHAPTER A. H. OF THE P. E. O.

Chapter A. H. of the P. E. O. was delightfully entertained Friday at the home of Mrs. Amelia Wattles at 332 Glendale avenue, who was assisted by Mesdames Viva Davenport, Essie Carmack and Miss Blanche Davenport. In the interval previous to the serving of the luncheon and during the program, members knitted or sewed on war relief garments.

Mrs. Abbie Barker had charge of the program, which consisted of vocal solos by Miss Dorothy Hobbs, two readings from O. Henry by Mrs. Bessie Mabry and piano solos by Mrs. Katherine Ripley.

Guests of honor were Mrs. Maxwell, president of Chapter L. and Mrs. Archie Parker, president of Chapter B. A. Both made nice informal talks.

The weekly sewing meetings which have been inaugurated by Chapter A. H. and which will be held at the home of Mrs. Barker, 115 Glendale avenue, Tropico district, will begin next Friday, July 5th, and will be continued as long as there is need of such work. Mrs. John Hobbs will have charge of this war work for the Chapter. The ladies will bring sandwiches and will be served with coffee and some other delicacy at a charge of 5 cents for each serving.

COMMUNICABLE DISEASES

Organized efforts for the control of communicable diseases in California have resulted in a 50 per cent drop in deaths from the epidemic diseases in the last 10 years, according to figures compiled by George D. Leslie, statistician of the state board of health.

On the contrary, deaths from diseases of middle age cancer, Bright's disease and diseases of the circulatory system have increased to a startling extent thus proving the need for intensive work for the prevention and control of middle age diseases.

Deaths from diseases of the circulatory system in 1908 averaged 145 per 1000 deaths and in 1917 averaged 177.8; deaths from Bright's disease averaged 57.8 in 1908 and 75.8 in 1917 while deaths from cancer averaged 55.5 in 1918 and 73.3 in 1917.

For the 10-year period the diseases of the circulatory system averaged 169.7 per 1000 deaths; deaths from tuberculosis averaged 142.3 per 1000 and deaths from violence, including suicide, averaged 103.7. Deaths from all communicable diseases, excepting tuberculosis, averaged 46.0 per 1000 deaths for the 10 years.

Construction of additions and improvements to the hospital establishment of the Army in this country during the past six months has been undertaken by the Construction Division of the Army at an estimated cost of $25,173,417.55. The new buildings consist of hospitals, convalescent barracks, infirmaries, and nurses' quarters.

A GOOD MAN DEPARTS

That the farm is the place to raise good men has been again evidenced in the life of I. E. Weaver, 822 West Fifth street, Glendale, who passed away early Thursday morning, June 27. To a great many the end was unexpected as few knew the serious condition of Mr. Weaver. But for some weeks he had been suffering from heart weakness. The end came quietly and peacefully.

I. E. Weaver was born in Nova Scotia November 29, 1841. When he was but six months old his parents heard the call of the great West and migrated to Wisconsin and settled on a farm. Here he spent his boyhood, the ruggedness of the farm life finding reaction in his character, until a strong, straightforward, undeviating, rugged honesty was his. The music of the soughing winds and the warbling birds found response in his nature and through all his years music filled a large place in his life.

Coming to manhood he decided to continue a farmer, and remained a farmer all his life until 1902. His contact with Mother Earth gave him a kindly disposition. Seedtime and harvest taught him the majesty and sacredness of life. And consequently he could not be other than religious in a strong, virile fashion. Honesty, integrity, the sense of justice, sympathy, neighborliness and a love of home characterized him.

After selling his farm he moved to Elkhorn, Wis. This was the family residence for ten years. In 1912 Mr. and Mrs. Weaver came to California to make it their permanent home.

In 1870 Mr. Weaver married Laura A. Williams. To this union were born four children, Mrs. G. U. Moyse, who passed away in Glendale two years ago; Dr. Elbert Weaver, Milwaukee, Wis.; R. D. Weaver of Los Angeles, and Mrs. J. I. Moyse of Los Angeles.

Mr. Weaver belonged to that type of which strong nations are built. The duties of the family, the church and citizenship received his best thought and attention. He was interested in all civic movements and reforms. He realized that the strength of the country is in its homes, and to his home he gave his best, the strength of his physical manhood in toil and sacrifice, the strength of his moral character and religious convictions. Realizing the value of the church and Christianity, he gave himself with the ardor of a Knight to the duties of his religion. But he was a knight of optimism. In the local church, the First Methodist Episcopal, he was an earnest and active member. The home has lost an ideal husband and father, the community a sterling citizens, the church a devout and faithful member.

TONIGHT

Saturday, June 29, at 8 o'clock, big Red Cross Garden Party at the residence of Mr. and Mrs. C. H. Toll, Kenneth Road.

TONIGHT

Saturday, June 29

At 8 O'clock

BIG RED CROSS GARDEN PARTY

At Residence of

Mr. and Mrs. C. H. Toll

Kenneth Road

The leading feature of the program, will be the dramatic readings by B. T. Robley of the University of California, who has been making a tour of the cantonments entertaining the soldier boys and who will give on the program tonight some of their favorites. There will also be a fine musical program, consisting of:

Vocal solos by Spencer Robinson for which Mrs. Robinson will furnish accompaniment.

Vocal solos by Mrs. William Herman West, accompanied by Miss Gertrude Champlain.

Piano solos by Mrs. John A. Wright.

Violin solos by Mrs. Nelson Higgins of Van Nuys.

Chorus singing by the audience.

Mr. and Mrs. Toll will be assisted by Red Cross committees and a corps of pretty girls will aid in the serving of the refreshments.

Socially and intellectually, this will be one of the big affairs the season which no one can afford to miss. Do not overlook the fact that it is TONIGHT. The price of a ticket is only 25c.

Busses bearing a Red Cross on their wind shields will run on Brand Boulevard starting at Tropico avenue and will stop on signal to take passengers to the Toll residence, collecting a fare of 10c which will go to the treasury of the Red Cross.

ANNOUNCEMENT

Editor News:

Last fall when plans were in the making for developing the entertainment department of our local A. R. C. chapter, I was informed that our finances were very, very low and that wool and other supplies were imperatively needed immediately. At that time we had had no Red Cross subscription campaign nor any Donation Drive. It seemed advisable to do something unusual and I agreed to arrange for a series of monthly Red Cross entertainments and sold quite a number of season tickets for $1.50, and the money thus obtained relieved the financial stringency.

We started out well and the first few concerns were given according to schedule; but we have not "made good" for several reasons and I have been a little ashamed and have felt as though I had been a party to "securing money under false pretenses." I might as well say that two Red Cross entertianments were all arranged, artists and hall all taken care of and then these entertainments were cancelled because other entertainments over which I had no control conflicted with them. It was at that time that I wrote you suggesting that some sort of a bureau be established where a diary of anticipated events could be kept so that there would be a little less "toe treading"!

However we mean well; and I want you to announce that stubs from the season tickets will be accepted at the Red Cross Garden Party tonight at the residence of Mr. and Mrs. Chas. H. Toll on Kenneth road. While we still need lots of money, the present condition of our treasury is quite different from what it was last September; and then we will be clearing our reputation! Incidentally, plans are maturing for a minstrel show which will take the place of the sixth and last of the entertainments promised and already paid for by many generous-hearted Glendalians.

HENRY R. HARROWER, M. D.,
Chairman of Entertainment.

BRAZIL BUYING MUCH SHIPPING

(By United Press)

BUENOS AIRES, June 29.—The Lloyd Brazilian Steamship Co. has established another new line of boats between Buenos Aires and Belem, Brazil, with callings at Montevideo, Rio Grande, Santos, Bahia, Maceio, Recife (Pernambuco) and Ceara.

This new service was inaugurated by the steamship Rio Janeiro, which sailed from this port recently with passengers, mail and cargo.

In a short time thereafter other boats were placed on this run. It is believed that the new enterprise has been well planned and that its success is assured. The greater part of the ships which once carried the traffic between these ports belonged to European companies and have since the war been placed on trans-Atlantic routes.

The Lloyd Brazilian company already has established several lines between Buenos Aires, Montevideo and Chile. This company instead of liquidating its boats at the high prices brought about by the war, has bought all the available tonnage in South American waters for the purpose of enlarging its formerly small fleet.

Since the war began Argentina has been selling off her boats, until today she is practically without the semblance of a merchant marine. Brazil, on the other hand, has been buying boats as fast as Argentina sold them and now possesses several regular lines of steamers with sailings between the principal Argentine and Brazilian ports.

The sailing of an Argentine boat from Buenos Aires has become an uncommon sight. The few ships that remain under the Argentine flag are destined at an early date to be sold to foreign countries.

Brazilian companies have taken advantage of Argentine's inclination to realize immediate, large profits from the sale of her boats, and has acquired ships of every class.

Argentine is today at a great disadvantage and entirely unable to compete with Brazil in shipping. It will be many years before she is able to overcome the lead in shipping which Brazil has acquired so rapidly.

JUNE DROP PREVENTED

For three years H. E. Howard of San Dimas has been growing buckwheat as a summer cover-crop in part of his citrus orchard with very satisfactory results. Last year the buckwheat formed a solid mass of green at the time of the heat wave. Mr. Howard averaged between 350 and 400 loose boxes of fruit per acre from this piece, while on the part of his orchard not planted to buckwheat he obtained about 150 boxes from 6 acres. Mr. Howard also states that his soil conditions have been greatly ameliorated by the buckwheat. He uses about 50 per cent additional water which is made up by the reduced cost of cultivation and irrigation.

Think what the spectacle of cheerful giving means to the enemy.

This church building is open from morning until night for any who wish rest, meditation or prayer.

The pastor, Rev. R. W. Mottern, lives next door on Fifth street to answer any call of need worthy of consideration, day or night.

ODDLY SHAPED FEET NOW GET FITTED IN ARMY SHOES

Two out of every 1,000 in the Army have to have their shoes made to order. In several camps entire regiments have had their feet measured, and hundreds of drawings were made of odd shapes and sizes. At the present time the Army uses between 2,000,000 and 3,000,000 pairs of shoes a month.

Facts brought out in tests seem to prove that men in the present Army are larger than those serving in previous wars. Not only is this shown by the larger sizes of shoes called for, but by the larger sizes of outer clothing that is being required. Records in the Quartermaster Corps show that a size larger, on the average, is being demanded in blouses, shirts, and breeches than have ever before been used.

Dr. George L. Wallace of Rentham, Mass., has been engaged by the state to superintend the construction and establishment of the proposed state hospital for feeble minded. Sites in Orange, San Diego and Santa Barbara counties are being considered.

SUNLAND

Everybody in Sunland is getting ready for a big time in the park on the 4th. There will be on sale by the Red Cross good things to eat, hot coffee and cooling drinks. W. P. Battellee of Los Angeles will give a patriotic speech at 2 o'clock. There will be good music. Everybody come and help have a good time.

Mr. Horton spent Wednesday in Los Angeles visiting his daughters.

R. Walter Maygrove was a Sunday caller in Sunland. He leaves Wednesday for Catalina to assist in the band for the summer.

Mrs. John MacVine was laid up for a week with a bee sting which poisoned her very badly. She is now better able to be out.

Mr. Lancaster has been appointed sheriff to look after the park. Evil-does better walk carefully.

The committee working on the Thrift Stamp drive reports a hearty response from every one in Sunland.

The work in the park for the summer is about completed as the funds are low. The swings are being put up in the children's playground. The ball diamond is marked out and the backstop up. We were in hopes to have a tennis court before the work was stopped.

Mrs. Wm. Graham went to Los Angeles Wednesday in the interest of the Red Cross.

Miss Cornelia Herron returned Monday from Ventura country where she had been visiting friends for a week.

Swimming in Dr. Spate's reservoir seems to be the pleasure of the hour for Valley young folks.

There are a few people in this community as well as in every other who seem to think every vacant place is public property, helping themselves to fruit, berries and flowers, not considering that it is as much trespassing as if the owner were there. We have a sheriff in the Valley now who will see that the law is obeyed and we hope these trespassers will take warning.

Bert Spencer has been sick the past week.

Esther Nicholdson has the measles.

The girls of the Valley are no slackers. They are taking the place of the men and boys in thinning peaches and doing other ranch work. All are trying to do their "bit."

The Christian Endeavor gave a social Tuesday evening, June 25. The entertainment consisted of the following program: several selections by the orchestra, a reading by Gladys Huse, a piano solo by Lita Adams, a vocal solo by Josephine Aikens. After the program, sandwiches, coffee, cake and ice cream were sold. The hall was decorated with Shasta daisies.

Irene Lancaster and Gladys Huse, the delegates to the state convention at Sacramento, will leave Los Angeles Monday morning at 8 o'clock with the Los Angeles delegation by auto. They are planning to take two days and a half for going up there. The convention will last until the 7th, after which they will return, stopping off for rallies on the way.

LA CRESCENTA

That big Thrift Stamp drive is over. Everybody signed up and pledged their limit. If the captains missed any one, come up to the post office and sign a pledge with Mr. Wetherbee. S. S. Thomas, T. Minford, Miss Clara Jones and Mrs. Schultz covered the territory and report splendid returns from their respective precincts.

The apricots are ripening fast and the crop will soon be ready for picking. Get your fruit jars ready, ye good housewives, and can all you can.

A Red Cross tea will be given on Sunday, June 30, 4 to 7 p. m. at the home of Mrs. Seymour Thomas, "Cuddledoon." A number of delightful surprises are promised and music and singing.

Saturday, June 29, is the Red Cross night at Bolton Hall, Tujunga. A splendid program has been arranged. Tickets are 25 cents.

Friday, July 5, the La Crescenta Improvement Association will meet at the auditorium at the school house at 8 p. m. This is a very important occasion. Everybody in the Valley is invited to be present as the question of annexation will be discussed. A number of speakers from Los Angeles and elsewhere will be present.

The knitting squad of the Red Cross turned in 101 knitted garments to the Pasadena headquarters this week. This is a wonderful showing for the number of knitters.

Mrs. Lewenstein and Ethel have returned to their Crescenta home. Mrs. Lewenstein has her sister from Arizona as house guest.

Mrs. Salisbury and Georgiana Kidd have gone to the beach for a brief vacation.

Mr. and Mrs. Judd Thompson and family left for San Diego on Saturday last. They will make their new home there.

Miss Marguerite Hauber had Miss Lucile Levy as guest for the Red Cross dance last Saturday and over Sunday.

Miss Florence Bruce had as guests Miss Marie Miller and Miss Eva Miller of Garvanza over Tuesday and Wednesday.

Mrs. M. C. Cloud has returned from the hospital and is recovering rapidly at her Crescenta home.

Caroline Erhart has Bessie Govie for a guest for a few days.

Miss Blackburn's class at the First Methodist church of Glendale had a picnic at Brookside Park on Wednesday.

D. E. Wetherbee's Bible Class had a moonlight session on the night of Monday, the full moon. Rev. C. R. Norton from the First Methodist Church of Glendale, gave an enjoyable talk on "Perfection." Ice cream and cake were served and a delightful social time was spent by all.

Mr. and Mrs. H. E. Bruce received a letter from their soldier boy, Sergt. Geo. M. Wilson, at Camp Kearny telling about a long hike just finished and also how much he enjoyed his trip while in La Crescenta the previous month.

The next show at the school house will be July 9, Wm. S. Hart in "The Captive God." Remember the date, July 9.

On Thursday, July 11, the Farm Bureau will meet at La Canada school house. Mrs. Hazzard will be present and a woman's chapter for conservation and preservation of foods will be organized. Every woman in the Valley is invited and urged to be present.

Miss E. A. Brown and Mrs. L. V. Janvier spent a few days at their La Crescenta home this week.

Prof. White's little pupils gave a musicale on Thursday night for their parents and friends. These little folks are making wonderful progress under his tuition.

Mrs. Kidd has rented her home for the summer months to Mrs. Woodward.

Mrs. Horn and Maie Caldwell leave today for Alamitos Bay for a ten days' vacation.

A GOVERNMENT JOB

The conversation at a social session turned to the beauty of having a government job, when this little story was related by Mededith Nicholson, the novelist.

Some time since a certain esteemed citizen who held a government position returned to his home on a visit and passed around among his envious friends.

"You're looking fine, Jim," remarked a friend as they stopped to light a cigar at Jim's expense. "Your new line seems to agree with you."

"Yes," cheerfully assented the other. "It might be a whole lot worse."

"By the way, Jim," asked the friend a few minutes later, "how many people work in your department?"

"I don't know exactly," was the reply of Jim, "but, roughly guessing, I should say about one-third of them."—St. Paul Dispatch.

"NO NONSENSE"

By Charles B. Driscoll

"I'll stand no nonsense from the Yanks
When this big war is done;
I'll make them open up their banks
And ladle out the mon!"

The bully by the River Rhine.
Smote hard his royal hip,
As he slammed down his royal stein
And bit his royal lip.

"Those tango lizards one day will
The violinist pay,
As sure as I am Bloody Bill!"
Thus did All-Highest say.

Thank God, the lizards didn't wait
As Wilhelm thought they would,
But started with their nonsense gait
While starting still was good.

As things are going now in France
It really doesn't seem
That Bloody Bill will have a chance
To realize his dream.

The lizards in their khaki suits
Are treating William rough.
The nonsense that their cannon shoots
Is pretty nasty stuff!

When it comes to coddling imaginary wrongs the average man is a faithful nurse.

There are about 5,000 Germans interned in the United States.

AS HE SAW IT

(Continued from Page 1)

and is a very commodious building. And those seen evidently were enjoying themselves very much.

This was the Main Camp and a permanent Naval Base, corresponding to Fort Sheridan, which we had passed en route from Chicago, and which last summer Grace and I visited.

Here are substantial brick buildings for instruction and for barracks for the normal Marine Corps. But these are not normal times and the station has grown within a few months to eight other camps, in any one of which are more men than normally accommodated here. At Camp Logan is a rifle range. Then there are Camps Dewey, Perry, Paul Jones, Ross, Farragut, Boone and Decatur. The last three named are known as "Detention Camps." It is here that all new arrivals come and where they pass through quarantine while being vaccinated and injected for one thing or another and conditions and regulations of like nature. Camp Ross is the outgoing camp. From the detention camps they are and may at any time be transferred to any of the other camps without much regard so far as they are able to discover any regular program, but if they reach Camp Ross that is their last stage in the station life, for from there they start "Over There." And by this time we all know what "Over There" implies.

Before going farther into the details of our visit, I should tell you that all these camps are delightfully located by or near the great lake, in among the trees in most places, as little clearing as possible having been done.

Of course large numbers of the tents are in the open. It could not be otherwise in a quickly built city of 35,000. At the Main Camp the grass is well lawned, concrete roads and sidewalks with great abundance of shady places.

There was much drilling and marching, but neither you nor I being of a military temperament, I can not describe that part interestingly. However, we will be mutually interested in an insight into the camp outfits and the individual tent life. Unlike the army tents of which I wrote at Charlotte, North Carolina, these are much smaller, fitted for three only. The bedsteads are single iron bedsteads with good woven wire springs. A heavy canvas and two blankets constitutes its furnishings. What is called a "sea bag' is the principal other article of furnishing. Into this bag, which is about the size of a seamless grain bag, or possibly one-fourth larger, goes all their Government furnished equipment except the bedding before mentioned. This consists of:

3 White duck suits.
3 Suits summer underwear.
2 Pairs shoes.
1 Overcoat.
1 Blue hat.
2 Blue woolen suits.
3 Winter underwear suits.
1 Pair rubber boots.
2 White hats.

I should have said this is their equipment, and therefore not all is in the sea bag at one time. And there is a hammock instead of a bedstead on shipboard.

This was the afternoon of the partial eclipse of the sun and one little incident happening at the time shows the moral temper of the boys. A group where I was were using a smoked glass and very generously offered it to me for a look. Just outside this group were other boys (thousands of them all around) and as through force of habit without a premeditated provocation whatever, one fellow exclaimed, "I don't care a G—— d—— about it any way" and tumbled into his tent. Instantly came the reproof from one in my group, "Here, cut out that rough talk." In an undertone I remarked, "We can get along just as well without that kind of talk." To which a third one replied, "Yes, and a great deal better." During the several hours I was at the station that was the only coarse expression I happened to notice, though I do not say it was the only one made; but the point I was impressed with and which I feel is justly due to be passed along the line, is that the majority are imbued with the spirit of the times in a broad sense of the term. To make the world safe for democracy, to make democracy safe for the world, and to make the world a better place to live in.

And here is another angle from which to view the inner life and thought of the boys. I was talking in a general way with a group of three or four about the conditions of life there and their surroundings. And right here I should say that aside from the Government equipment each one is permitted a small-sized suitcase for personal effects. In speaking of the camp life I want to tell it just as one said to me, and in his words, which were substantially as follows: "We try to maintain a good fellowship feeling in the can. None of us has every lost a razor, fountain pen or anything of that kind. I leave money in my grip, never think of locking it. We let that to do a mean trick of any kind is an injury to the Navy, and no of us wants to do that. I have been in three of the camps here and have never lost a thing in any of them. and bunked with different fellows in each camp. I would trust the boys here a good deal farther than in civil life." Now these are some of the instances which I saw and heard in the short time I was there.

I noticed the gathering of a crowd about a bulletin where an officer was posting something and of course (like Satan) went also. It proved to be the announcements for Sunday services and I took the time to copy it, which was as follows:

6:30 a. m.—Catholic, Administration Building.

9:00 a. m.—Lutheran, Administration Building.

9:00 a. m.—Bible Discussion, Y. M. C. A.

10:00 a. m.—Christian Science Room 3, Instruction buildings.

10:30 a. m.—Address, Senior Chaplain Thompson, Administration Building.

7:30 p. m.—Bible Meeting Y. M. C. A. Room.

Other announcements on board were for the week. Something for every evening. Monday and Thursday, lessons in French.

I learned much from a short visit with the secretary of the Y. M. C. A., whose particular function is to provide as homelike conditions and atmosphere for the boys as is possible away from their homes. Writing material and tables are at their service all the time. Instruction classes and amusements are furnished and directed. Was informed there were fourteen regiments in all the camps and each regiment has its "Y," as they say for short. So in some of the camps there are more than one "Y" hut. There were three "Y's" at Camp Dewey and three at Camp Perry.

Also visited the mess building and bakery combined and found them anything but messy. Just as clean and attractive as was necessary for the purpose. The smell of fresh cinnamon rolls was very magnetic, and I saw pan after pan of them being put into the great ovens and enjoyed a friendly chat with one of the bakers. Bread is baked in six-pound loaves. In size as ordinary loaves, but six times longer. There are 150 cooks and bakers at this main camp. All the baking of breadstuffs is done here, but other cooking is done at respective camps. The ovens are on continuous duty to turn out 13,000 pounds of bread only per day. Notwithstanding their active exercise in constant training every day, nearly every boy is gaining in weight.

One had been in a grocery in Kansas, and said his work was lighter than in the grocery. He told of a very wealthy fellow who at first found the work very hard, but not a word of complaint; he was just as nervy as they make them. Another said that in his company were two ministers, but they expected no favors.

At present it is not possible for all of them to get ship training, though that is the regular program in normal times. The advanced classes are given actual ship training on the lake.

From this visit to the Naval Station I am convinced that the camps are excellent places for young men, fully equal to the average home surroundings, and they have the advantage of having certain lines of action decided for them instead of the responsibility of deciding everything for themselves. To be sure, their being there is for training in war deeds, but with that training they are given the high moral example of "being square" with their fellows.

Every one thinks of the "Y" as headquarters when off duty. Another important point in their lives is "letters." They never can receive too many messages from friends. Of course it should not be expected that they have nothing to do but correspond with friends, but the receiving of letters is a better tonic to make their life a happy one than any other one thing which is practically possible under present conditions.

Hoping that you may in part see this word picture as I saw the original, I am as ever,

H. MONTAGUE PORTER.

TONIGHT

Saturday, June 29, at 8 o'clock, big Red Cross Garden Party at the residence of Mr. and Mrs. C. H. Toll, Kenneth Road.

SUNSET 428 PHONES HOME 2233

ROBINSON BROS. TRANSFER AND FIRE-PROOF STORAGE CO.

We do crating, packing, shipping and storing. Trunks and baggage hauled to all points.
All kinds of moving work.

604-606 S. Brand Boulevard, Glendale
